

Base Paper For Wet Wipes

PFN base paper for refreshing towels is suitable for further processing or converting to make finished-products e.g. refreshing towels, cleaning and disinfecting wipes, moist toilet paper, cloths.

Base paper for wet wipes is lint-free and free of any kind of abrasive particles. Therefore it is ideally suited for micro fine cloth. We can guarantee colour fastness without bleeding of colours after moistening with lotion.

Wet wipe paper is available in different roll widths with a paper weight of 41 g/m² or 45 g/m²; in white, blue or yellow. Other colours are available.

Base paper for wet wipes is pure-grade paper, made at the company's paper-mill at Netstal, in Switzerland, free from all environmental pollutants. All our white paper is made from ECF or TCF-bleached pulp; all pulp is supplied from certified, sustainable forestry operations. Only wood-free virgin pulp is used for our paper without any recycled content; it is also high tear-resistant when wet and absorbent. The resultant base paper is regularly tested by an independent laboratory, ISEGA, to whose safety standards it conforms. The quality of our base paper for wet wipes is subject to defined and regularly monitored standards conforming to DIN EN ISO 9001.

Standard specifications for base paper for wet wipes:

Size	Quality	Packaging Option
various roll widths are available	41 or 45 g/m ² white, blue, yellow crepe-based, wood-free	reels shrunk on pallets
